Employee Perspectives on CUSD's REOPENING PLANS

ATTENTION: ALL CERTIFICATED & CLASSIFIED EMPLOYEES

CUSD Colleagues,

Concerned that the feedback of District employees is being publicly misrepresented by District administrators, including Principals and District Office leadership, the Union has developed a SURVEY to clarify employee perspective on the REOPENING of CUSD schools. [*Likely, this will be the first of several such SURVEYS that CAUSE publishes in the next few weeks.]*

It is critical that the sacrifice, participation, candor, and interests of District employees are not misrepresented at times like these. Especially when those misrepresentations are being used to allege support for REOPENING decisions and plans that place students, employees, and their families in danger.

Therefore, Union Leadership asks that both CLASSIFIED & CERTIFICATED employees take a moment to complete this SURVEY, which can be accessed HERE, or by following this link:
