

Expenditures Per Pupil and School Site Teacher Salaries Compared to State Averages

Even though CUSD is a **BASIC AID District**, and in the top 4% of the most robustly funded TK-12 school District's in the state, you will find that both **Expenditures per pupil** and **teacher Salaries** are far below State averages **at EVERY SCHOOL SITE:**

	<u>Expenditures per pupil</u>	<u>Teacher Salaries</u>
ALISO	- 19.9	- 14.2
CANALINO	-27.3	-19.4
CMS	-13.6	-20
CHS	-22.8	-26.8
CFS	-44.5	-8.3
SUMMERLAND	+ 26	-14.1

NOTE: At the Jan. 28th Board Meeting, Superintendent Rigby discounted this data, stating that it is from 22-23, which is the data contained in the most current SARC Reports. What she failed to share...

- The data is always a year behind.
- If the current data were crunched in the current, these numbers would be even worse!
 - *B/C there has been no salary increase in 19 months*
 - *The CUSD * AUDIT, released in Dec. 2024, exposed that CUSD did not invest even the minimum in employee salaries, as required by Ed. Code. This \$3.5 million dollar deficiency, uncovered in the AUDIT, is equivalent to a 17% pay increase for ALL District employees.*

Regardless, look who was in charge in 22-23...
