CAUSE ADVISORY

REOPENING Conversations @ SBUSD

An Example of Transparency, Collaboration, and Efficiency

Greeting CUSD Stakeholders,

In an effort to provide District stakeholders an example of a transparent, collaborative, and efficient process for decision-making associated with the REOPENING of the district, CAUSE is providing the attached data: **SBUSD's Board Report on REOPENING (***Published June 23, 2020*).

We encourage you to familiarize yourselves with SBUSD's effort to make decisions that both:

(A) are thoroughly informed by critical District stakeholders, and reflect the State's expectations for REOPENING

...and...

(B) promote the sustainability and buy-in that results from the transparent inclusion of these groups.

Unfortunately, CUSD leadership continues to take a different approach, which CAUSE predicts will result in a very different outcome. But again, it's not too late to form a **2020-21 * CUSD REOPENING COMMITTEE** and get the ball rolling.

In Unity,

~ CAUSE Leadership
