

**CAUSE ADVISORY**  
**Secondary In-Person Reopening**  
**Proposal (w/Schedules) Submitted**

=====

CUSD Colleagues,

The District has recently announced a more realistic time frame for secondary re-opening; not January or February, but the end of March (3/29/2021). Upon examination, Union Leadership believes that there is a true possibility that this date may actually stick. So we have been bargaining the conditions related to the potential reopening.

Fortunately, CAUSE has been proactive about this conversation. We have been providing the CUSD proposed improvements to their current reopening plans; well in advance of the reopening timeline and with more than enough time to improve the decisions that will impact the success of our reopening. Those improvements are contained in the attached proposal (below).

As we have stated in a variety of forums, CAUSE understands that no reopening schedule, the District's or the Union's, can satisfy or resolve all of the considerations and interests associated with reopening in the midst of a global and national pandemic. But we do believe the Union's proposal demonstrates a laser focus on maintaining the HEALTH & SAFETY of students, employees, and their families, while reopening the CUSD's secondary school sites.

In Unity,

~ CAUSE Leadership
